VERSE 1

Always searching for something real that I can hold
No returning to the void I've come to know
I'm never finding a thread of hope that pulls me home
Where is home?

CHORUS

Then your loves comes in, I'm reminded of just who I am
Then your loves comes in, bringing freedom where it's never been

VERSE 2

Always faithful to unravel every lie
No condition that you won't resurrect in time
I'll never question that your presence is alive, cause it's alive, Oh, I'm alive

BRIDGE

Your heart has got a hold on me and you won't let go, so I won't let go
Consuming every part of me and you won't let go, so I won't let go

VERSE 3

Always giving, not because of what I've done
No admission that'll ever make you run
I'll never wander cause In your presence I am home, welcome home.

OUTRO

And that's that, sit back, believe that
There's no second act, put your hands up and receive that.
It's finish it is done, closed the chapter on everything, victory has begun
It's a new day, sun shining, put your shine on, move on and just keep smiling
Cause forever is closer than you think
With God here just close your eyes and lean back and blink
He is here, love came in, love stayed when everything fades
It is his will, his choice and it changed everything
And that's that, sit back and receive that
There's no second act, put your hands up and keep that.
